TO EVENT ORGANIZERS OF

Green Conferences

GRIEGHALLEN

Green Conferences

Through The Eco-Lighthouse Grieghallen has been certified as a venue that can host Green Conferences. The Eco-Lighthouse is Norway's most widely acknowledged certification scheme that helps us make choices that minimize the environmental impact. As an event organizer visiting Grieghallen this means that we will encourage you to make greener choices so that together we build a more sustainable future. By fulfilling the criteria from The Eco-Lighthouse your conference can be certified as a Green Conference.

We are a Climate Partner and Eco-Lighthouse

Green Conferences

When choosing Grieghallen as the venue for your conference, many of the criteria for Green Conferences have already been met and adapted by us. This means that you can be sure that the venue for your conference take social responsibility by contributing to a sustainable future and we do our part.

We are a Climate Partner and Eco-Lighthouse

CRITERIA FOR GREENER EVENTS THAT MUST BE MET BY EVENT ORGANIZERS

Information

We inform our audiences and visitors about the environmental measures we have made both in advance of visits and at our venue. All employees and partners have had the necessary training and education in operating as a greener venue.

Transportation

We facilitate environmentally friendly transportation of both audiences and all equipment needed for productions and have both bicycle parking and city bikes easily accessible for the public.

Energy saving measures

We focus on saving energy in everything we do, from heating to sustainable technical solutions and innovation.

Procurements

Our main partners and suppliers are environmentally certified.

Disposable items

We are reducing the use of disposa packaging to a minimum.

Waste

We have an efficient system for red sort waste by source. There are enstations throughout the house.

We clarify the use of any banners a information material with the custo advance of the event. Used banner turned into tote bags and other pro after the event.

e all	Food and beverages We offer organic and vegetarian alternatives and prioritize local produce.
able	We do not use fish and shellfish that have a red light in the Seafood Guide from WWF.
cycling and viromental	We work to reduce food waste and use services like 'Too good to go' so ensure that we have minimal food waste.
and other omer in rs are oducts	

CRITERIA FOR GREENER EVENTS THAT MUST BE MET BY EVENT ORGANIZERS

Information

Inform all partners and conference participants about the environmental measures made prior to the conference.

Transportation

Gather information about environmentally friendly means of transportation to and from the conference.

Ensure that no vehicles idle on the conference site. Turn off the car engine while loading and unloading.

Procurements

Prioritize the purchase of eco-labelled products for the conference.

The most important and substantial suppliers and partners must be environmentally certified.

Disposable items

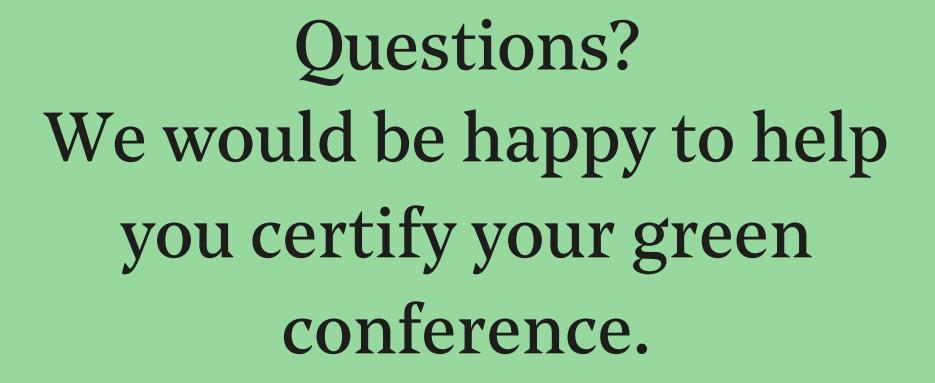

Reduce the use of disposable items such as samples, promotional items and give-aways to a minimum. Always look into sustainable alternatives to merch and the likes.

Safety Any extraordinary safety measures must be identified.

Other

Ballons, plastic-based confetti, glitter and other effect materials that may contribute to littering must not be practiced.
